

# AKRIVON

## GLOBAL INDUSTRIES

**SETTING THE NEW STANDARD IN EMISSION  
CONTROL**

# World-Class Infrastructure

---

## Automated Production

Our Hyderabad facility utilizes advanced multi-stage filtration and deionization. We eliminate every trace of micro-impurities that can damage high-precision SCR systems, ensuring your fleet stays operational and efficient.

## Zero-Defect Quality Control

Batch-wise verification is our priority. Every gallon of Akrivon DEF undergoes 18 distinct laboratory tests to guarantee the refractive index and purity levels required for modern BS-VI engines.

## Strategic Supply Network

PACKAGING UNIT	IDEAL APPLICATION
20L Portable Bucket	Perfect for emergency on-road refills and small LCVs.
210L Industrial Drum	Optimized for fleet workshops and service centers.
1000L Standard IBC	The gold standard for high-volume logistics parks.
Bulk Tanker Supply	Dedicated pumping services for massive fleet depots.

### UNIVERSAL COMPATIBILITY

Engineered to work seamlessly with SCR systems from TATA Motors, BharatBenz, Volvo, Mahindra, Ashok Leyland, and Scania.
